I'm pleased to be able to share with you a publicity quite we've received from Yahoo!Answers UK & Ireland about our continued participation as one of their Knowledge Partners, it reflects the hard work you all put in:

"As the Yahoo! UK & Ireland Answers Community Manager I'm delighted to have Enquire as a contributor to our site. At the time of writing they have a staggering 77% Best Answer ratio – meaning 77% of the time the users or the community think their answer is higher quality, more engaging and adds more value to them than all the other answers given. Trust me when I say this is a massive achievement for Enquire and currently makes them one of the leading UK & Ireland's leading Yahoo! Answers contributors.

The quality of the answers provided reflects to our 7 million UK & Ireland users that they are a leading expert in the reference field, with a vast repository of knowledge in libraries available at their fingertips to share with the Answers online community. This gift of experience and knowledge is invaluable to the Answers community, as the exceptional 77% Best Answer ratio proves!"
